Read Across America

Well, we didn’t hear from every state during our Read Across America project, but we really enjoyed receiving postcards and letters and pictures from all over the country. Thank you for asking your friends and family to help us with our project. We had so much fun learning about the states that make up our country! One of our favorite memories was learning about Alaska. The town of Fort Yukon has only 2 stores, one being a gas station. Food there is very expensive. For example, a gallon of milk costs \$16.00!!! They also spend one entire week of their school year learning and practicing how to cross country ski. We also received candy bars from Mrs. Halstead’s Uncle-in-law in Idaho. They were shaped like a potato and you can only buy them in Idaho!

“THANK YOU
for all your help!”
